

CROWN ESPRESSO

WHEN ONLY THE BEST IS GOOD ENOUGH

Crown Espresso is truly marked with proud workmanship right down to the last detail. The purpose of Crown Espresso is to be able to deliver the best possible cup of coffee – every time. With this point of departure and with an uncompromising demand for the best of everything from design to performance, we are proud to present an espresso machine of a very spectacular caliber. Crown Espresso is our suggestion to an espresso machine that most certainly is fitted the discerning buyer, and is prime quality inside out.

THE UNCOMPROMISING MACHINE

The machine is a result of many years of development and fine adjustments. The sense of detail is unique and only the best possible materials have been used in the production of Crown Espresso.

The insides are copper pipes, and mechanics instead of electronics, and the surface is polished stainless steel, which is exclusive and impossible to scratch.

Even the water tank is made out of steel. Crown Espresso reduces energetic costs to an absolute minimum.

A SILENT GRINDER WITH MULTIPLE FUNCTIONS AND LOW SOUND

In addition to Crown Espresso is a grinder with multiple functions, which grinds the beans as desired and in no time.

A double bayonet is filled in 3.0 seconds. Besides being extremely fast, the grinder is very silent. Among others, this is because the beans are being cut instead of crushed. Besides that this function makes the grinder extremely silent, it also provides the freshly grinded coffee with a richer taste.

DO YOU WANT TO BE ABLE TO OFFER THE BEST?

Crown Espresso is the machine for the connoisseur – to the coffee enthusiast, who requires the best taste, and who refuses to compromise. Do you want to be able to offer your customers or yourself the best possible coffee experience? Do not hesitate and please contact us for a further introduction to Crown Espresso.
